CANYON PRIORITIES COMMUNITY DISCUSSION

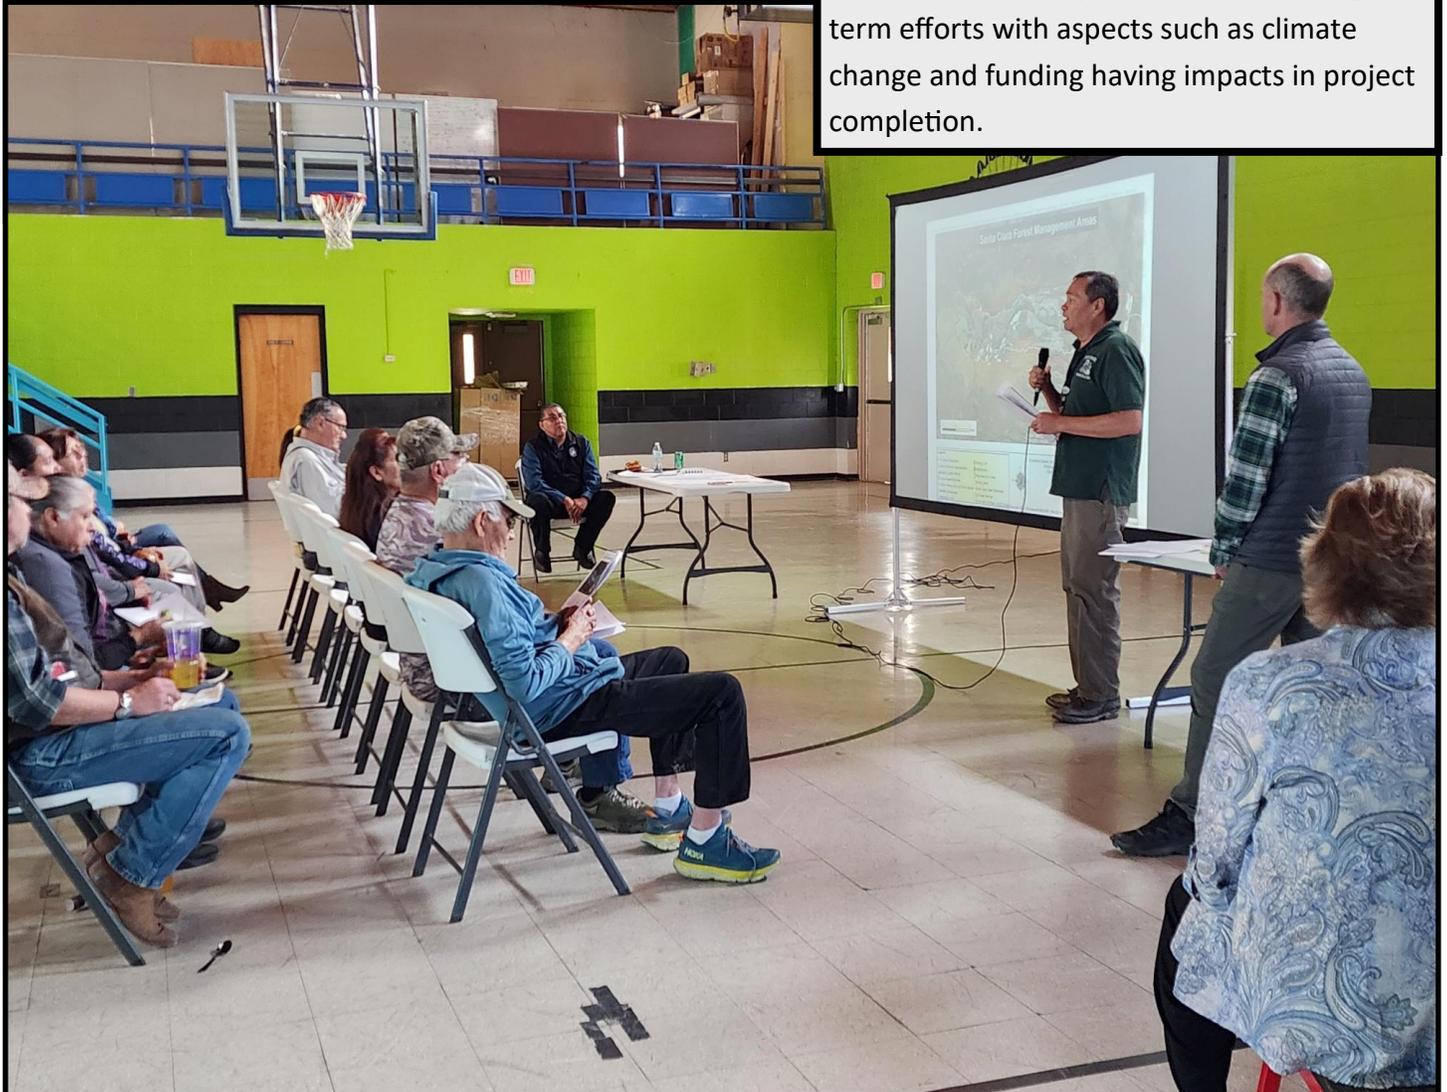

The meeting was held the evening of April 3rd in the gym and interest from the Community was evident by the number of people in attendance. During this meeting, the primary topic was addressing responses to the survey on project priorities for restoring Santa Clara Canyon's uses. **Future community involvement will include 1.) evaluating options for bringing back fish in the Creek and 2.) creating opportunities for community work days in the Canyon.**

The Community Meeting was coordinated to present the progress in stabilizing conditions in the Canyon since the fire and to discuss prioritizing future plans for bringing back the use of the Canyon.

Meeting attendees had submitted their Surveys and were interested in how their suggestions would be prioritized. The surveys had been distributed twice before in the newsletters. Governor mentioned that some of the projects had been on-going for years, prior to the fire. The need to address the effects of the fire changed all priorities and preventing flooding of the Pueblo became the major concern. Tribal Forestry, Daniel Denipah and Garrett Altmann cautioned that expectations of projects will require long-term efforts with aspects such as climate change and funding having impacts in project completion.

She has extensive experience Working in outpatient programs, male and female/child residential facilities, inpatient hospital treatment and with Job Corps Intervention Program. Lessons have been shared thru empathy and connection to those that she worked with, past, present, and future. She has learned to accept that she was in place for those that were ready to seek assistance, "She didn't do it for them, they did it themselves." Making the decision to choose sobriety and follow the path to recovery has brought hope, tears of joy and sadness, and learned optimism. She hopes to be of assistance to many individuals in the future.

National Child Abuse Prevention & Awareness Month

April is National Child Abuse Prevention Month, a time dedicated to Child Abuse Education, Awareness and Prevention activities.

The "Blue Ribbon" and the "Pinwheel" are symbols for Child Abuse Prevention. By wearing one of these pins during April and throughout the year, individuals can:

- help **educate** families, children, neighbors, organizations and communities on how to prevent child violence and neglect
- **encourage** community and individual involvement in recognizing and preventing child violence and neglect
- **assist** families in achieving healthy parenting practices through education and resources
- **empower** individuals to report child victimization and intervene in situations where violence and neglect harm children.

Abuse or neglect of a child causes suffering to the most vulnerable, undermines the promise of strength and harmony in families, and is related to long-term mental and physical health risks in the victim's development.

Child Abuse Prevention is possible and we all can do something about it through partnerships among families, Social Services and Behavioral Health, Schools, Law Enforcement and the entire Community devoted to the safety of our children. We must all come together to raise awareness to this cause and make every day A Day of Hope for our children.

EVERY THREE MINUTES A CHILD IS ABUSED IN THE U.S

Please help us bring Awareness to this cause

Please contact the Social Services Department @ (505) 753-0419 if you need further information on Child Abuse Prevention
