

July 11, 2025

YOU ARE INVITED TO :

BBQ PARTY

Honoring Veteran's

HOSTED BY :

INPRO & ADC

On July 1st, INPRO and Adult Care, ADC, coordinated a BBQ to honor Veterans for their service. Besides the great food prepared by ADC staff the Veterans received a conference bag, a Tee Shirt and Ball Cap each with the Santa Clara logo on them.

"Freedom is not free" it is a phrase we often hear but Veterans and their family understand the sacrifices they have made to serve this country. We greatly appreciate each Veteran for their service and our freedom.

Re: **Notice of Construction Project, Governor's Office Building**

This notice is to inform you of an upcoming construction project that will construct a new Governor's Office. The new building will be located across from the current Tribal Administration building.

Kha'P'o Construction, LLC is the Contractor who will be working on the project. Please be aware that there will be heavy traffic around the area; we ask that you remain mindful of construction workers and maintain your speed while traveling through the vicinity. This construction work is expected to be completed in December 2026.

We appreciate your patience during this construction phase. If you would like to know more, copies of the construction plans are available upon request. If you have any questions, please contact the Special Projects Office at 505-692-6309.

Date: July 1, 2025
RE: Bear/Mountain Lion Sightings

The Santa Clara Pueblo Conservation Department has received calls about bears and mountain lions in the Rio Grande Bosque area and Santa Clara Pueblo/La Mesilla residential areas. The Santa Clara Pueblo Conservation Department wants the community to be cautious while walking, running, and farming in the Rio Grande River area. Please be aware of your surroundings and report any bear/mountain lion sightings to the Santa Clara Pueblo Tribal Police Department. Taking precautions can help ensure the safety and wellbeing of the community and wildlife.

On May 26, 2025, Conservation Officer Matthew A. Sisneros, successfully captured this bear in the Lower San Pedro Residential area near Santa Clara Pueblo Tribal Land. New Mexico State Police requested for assistance with the bear. Conservation Officer Matthew A. Sisneros and Santa Clara Pueblo Tribal Sheriff Donald Suazo successfully relocated the bear back into the Santa Clara Pueblo Canyon without any harm.

If you have any questions, please don't hesitate to contact the Santa Clara Pueblo Tribal Police Dispatch Center at (505) 753-7326/(505) 692-6290.

Re: **Notice of Construction Project, Village Sewer Improvements Phase II**

This notice is to inform you of an upcoming construction project that will focus on installing the sewer mains in the Southern Village/ Lower Fields area (see attached map- highlighted in green). The objective is to install new sewer mains to remove homes and tribal buildings from septic tank systems. This project is a benefit to the Pueblo as it will replace failing infrastructure, improve operations and maintenance.

Spiess, LLC is the Contractor who will be working on the project along with Souder Miller and Associates. Traffic will be diverted to different locations during this time, please be mindful of construction workers and maintain your speed. Please try to avoid the area as much as possible. Farmers will still have access to their fields.

This work is expected to be completed in December 2025. The Santa Clara Tribal Administration appreciates your patience during the construction phase. Copies of the construction plans are available if you want to know where the work will be occurring. If you have any questions you may contact the Special Projects Office at 505-692-6309.

IMPORTANT INFORMATION ABOUT YOUR DRINKING WATER

Failure to Correct Significant Deficiencies

The **Santa Clara Pueblo Public Water System (PWS ID 063500166)** failed to correct significant deficiencies identified during a sanitary survey within the timeline required by the Safe Drinking Water Act. This resulted in a violation of the Ground Water Rule. Even though this was not an emergency, as our customers, you have a right to know what happened and what we did to correct this situation.

What happened?

From 2016 to 2022, the EPA Region 6 Drinking Water Staff performed a detailed evaluation of the water system, called a sanitary survey. From these surveys, the EPA identified significant deficiencies with the water system's facilities, operations and management. Some of these deficiencies remained unaddressed from previous deadlines for correction.

What should I do?

- There is nothing you need to do at this time. You do not need to boil your water or take other actions. You may continue to drink the water. If a situation arises where the water is no longer safe to drink, you will be notified within 24 hours. This is not an emergency. If it had been, you would have been notified within 24 hours.

Rule	Explanation	Date identified	What is being done	Expected date of completion
Ground Water Rule – Significant deficiencies highlighted during sanitary surveys	There are an unknown number of Air Relief Valves (ARVs) that terminate below-grade in vaults throughout the Pueblo	2016 to 2022	<i>Air Relief Valves (ARVs) are being received from companies and will began to replace throughout Pueblo watersystem soon.</i>	<i>Next two- three months</i>

For more information, please contact: Steven Trujillo or Brian Suazo at (505) 692-6246.

This notice is being sent to you by the **Santa Clara Pueblo Water System (PWS ID# 063500166)**

Date Distributed: 7/7/2025_____

The Santa Clara Pueblo Senior Center is proud to serve our local Elders with compassion, purpose, and dedication. We currently have seven full-time employees and one open position. Our Center operates through funding provided by Federal, State, and Tribal governments. These funds help support essential services, including staff salaries, meal programs, transportation, and a wide range of enriching activities.

Our mission is simple yet deeply meaningful: to invite and encourage all Seniors, beginning at age 50, to take part in programs that support healthy living, personal growth, and community connection. We believe every Elder carries a lifetime of wisdom, strength, and culture, and our goal is to create a space where that can be celebrated and shared. Through engaging activities, social interaction, and supportive services, we strive to enrich the lives of our Elders by helping them stay active, feel valued, and continue contributing to the community they've helped shape. At the heart of our mission is the belief that aging is not just about growing older — it's about staying involved, staying respected, and staying connected to the people and traditions that matter most.

Our Congregate Meals Program provides and prepares daily meals for approximately 260 seniors. We currently have two full-time cooks and one vacant cook position. Our kitchen team is responsible for planning monthly menus, ordering food supplies, preparing meals, and packing them for delivery or service. **While menus are carefully planned, please note they are subject to change based on availability or unforeseen circumstances.** To ensure that meals reach as many Elders as possible, we have three dedicated Meals-on-Wheels drivers who cover all areas of Santa Clara Pueblo — including South Housing Sub-Divisions, Main Village/Plaza Area, East Housing, West Housing, and extending up to Guachupangue.

For those who prefer to dine on-site, **in-center meal service is available Monday through Friday from 11:00 a.m. to 12:15 p.m.** A **\$4.00 fee** is required for **guests or individuals under the age of 50** who wish to join us for a meal.

Interested in Congregate or Homebound Meals? Visit the Senior Center to pick up an application. We also welcome and serve Non-Native Elders residing in the surrounding communities.

Our Activities Program offers a variety of both in-center and off-site experiences, including field trips to fun and relaxing destinations such as the Zoo, Ojo Caliente Spa, local

Casinos, Farmers Markets, Bowling, and more. We also host engaging events such as Luncheon BINGOs, Home BINGOs, movie days, Chair Exercises, Tai Chi, and vital checks provided by the local CHR staff.

In addition, we proudly offer monthly food distributions and commodity distributions. Collaborations with our local Adult Day Care (ADC) allow us to organize dances and other exciting community events that promote joy and interaction among our seniors.

Our Caregiver program provides vital transportation services for our Senior congregates — whether it's to run errands, attend appointments, grocery shop, or enjoy lunch at the center. Home visits and safe return transportation are also offered to ensure continued support and care.

Our monthly menu and activity calendar are distributed at the end of each month. We offer a wide variety of scheduled monthly activities. If you would like a current listing or more information, please don't hesitate to contact us. We warmly invite you to visit and explore all that our Center has to offer!

HOMEBOUND FRIENDLY REMINDER: We kindly ask that all pet owners ensure their dogs are properly restrained during meal deliveries. This is for the safety of our drivers, as we've had recent incidents involving dog bites from loose animals. In accordance with the Santa Clara Pueblo Ordinance Sec. 89.13 – Restraint of Animals, Leashes:

Sec. 89.13 Restraint of Animals, Leashes

A. It is unlawful to permit a dog in the streets or public places unless on a secure leash not exceeding eight feet in length and under the immediate physical control of the person having custody thereof. No dog, cat or other member of the canine or feline families is allowed upon a public playground or on the premises of a public swimming pool or upon a school yard, or on the premises of a Head Start facility or health clinic, but this provision shall not apply to any guide or hearing aid dog which has been trained to assist the blind or deaf provided that such dog is in the company of the blind or deaf person whom it was trained to assist.

B. The above restrictions do not apply when such an animal is in a bona fide animal show or training program authorized by law or appropriate school authority.

Q. "Running at Large" means not confined within a building, shelter, walled or fenced area or secured by a leash, rope, chain or other restraining device, unless under the direct control of the owner/handler or keeper;

Dogs must be secured at all times. If your gate is closed and your dog is contained within, with no ability to exit, you are in compliance. However, if your gate is open and your dog is loose, this is considered a violation. **Continued noncompliance may result in a formal notice, meal suspension and a visit from Animal Control.** Thank you for your cooperation in keeping our staff safe. For more information or to speak with a staff member, please get in touch with us at (505) 692-6244. We look forward to seeing you soon!

SANTA CLARA PUEBLO OFFICE OF VITAL STATISTICS & ENROLLMENT

Greetings from the Office of Vital Statistics and Enrollment (OVSE) Program. My name is **Tracilee Gutierrez**, and I am a 44-year-old member of Santa Clara Pueblo. I serve as the **Director of the Office of Vital Statistics & Enrollment**, having begun my tenure with the OVSE Department in mid-November of 2021 as the Programs Manager and Enrollment Clerk. I hold an Associate's Degree in Information Technology and am currently completing a Bachelor's Degree in Science and Information Technology, along with a certificate in Business Administration.

In my role as Director, I operate under the general guidance of the Deputy Tribal Administrator, Mr. Gilbert R. Tafoya. I am responsible for supervising the Non-Member Residency and the Tribal Enrollment Program. My duties include managing enrollment files, issuing death certificates, processing Bureau of Indian Affairs (BIA) forms, and facilitating correspondence with the Tribal Governor's Office. I also liaise with external agencies concerning enrollment matters and ensure the accuracy of census data by entering information into the registry. Furthermore, I participate in Tribal Council meetings to discuss sensitive topics, such as Minor Child Registrants, death certificates, and other pertinent issues related to the OVSE Department.

My name is **Allayne Martinez**, and I am the new **Program Manager/Enrollment Clerk I** for the Office of Vital Statistics and Enrollment. I joined the OVSE team on September 3, 2024. Before this role, I served as a CHR Driver in the CHR/Diabetes Program. I previously worked as the Non-Member Resident Clerk at the OVSE for eight years, where I gained valuable experience in data entry, record-keeping, and providing accurate information to the public. I was drawn back to the OVSE by the opportunity to once again engage with the community through services like enrollment, Tribal/Non-Member ID card issuance, assistance with Death Certificates, family tree research, Document Requests, and interdepartmental support. I am excited to contribute my skills and experience to the OVSE team and look forward to serving the community in this new capacity. If you have any questions regarding membership, Birth Registration, ID card appointments, or require additional information, please do not hesitate to contact me using the information provided below.

Corrine Padilla serves as the **Enrollment Clerk II/Data Technician** under the supervision of the Vital Statistics Enrollment Clerk/Program Manager. In this role, Ms. Padilla is responsible for classifying

records and verifying numerical data to maintain accurate records within systems that align with the department's objectives. She serves as the primary point of contact for individuals seeking information and submitting applications under the Santa Clara Pueblo Enrollment Processes.

Ms. Padilla proficiently enters alphabetic, numeric, or symbolic data from source documents into the computer using data entry devices such as keyboards or optical scanners, adhering to the format displayed on the screen. She meticulously compares the entered data with the source documents and re-enters information in a verification format when necessary to identify and correct any errors. Additionally, she reviews notes and instructions on source documents, juxtaposing this information with printouts to identify discrepancies and ensure compliance with established policies and procedures.

Furthermore, Ms. Padilla compiles, sorts, and verifies the accuracy of the data before it is entered. She creates and implements office management and operational procedures, provides reference files, and drafts various correspondence. A crucial aspect of her role is safeguarding operational integrity by maintaining strict confidentiality of sensitive information. She is responsible for composing and distributing memoranda, reports, and other correspondence with the utmost accuracy to the appropriate personnel or agencies.

To enhance her professional and technical knowledge, Ms. Padilla participates in educational workshops and training relevant to her responsibilities. She ensures the availability of necessary forms and oversees the copying process. Additionally, she attends all scheduled meetings as requested by the Director. Ms. Padilla is adept at providing clear explanations of the Enrollment processes to the community while delivering exemplary customer service both in person and via telephone. She actively contributes to team objectives by accomplishing related results as needed, consistently maintaining the confidentiality of all privileged information while performing other assigned duties.

Louis “Smokey” Naranjo, Non-Member Residency Program Clerk, I am from Santa Clara Pueblo, and I am 23 years old. I hold an associate and bachelor's degree in information technology, and I enjoy my position in the OVSE department. I am under the general supervision of the Director of the Office of Vital Statistics and Enrollment or their delegate in charge. This position is responsible for classifying records and verifying numerical data to maintain records using systems designed to achieve the department's objectives. This position serves as the primary point of contact for individuals requesting information and submitting applications based on the Non-Member Residence (NMR) Code. Compare the entered data with the source document or re-enter it in verification format on the screen to detect errors. I also read notes and instructions written on source documents and compare the information with printouts to detect errors and ensure completeness and conformity with establishment policies and procedures. Compiles, sorts, and verifies the accuracy of data to be entered. Creates and implements office management and operational procedures. Provides reference files and drafts correspondence. Protects the operation by keeping information confidential. Composes and copies memorandums,

reports, and various correspondences, ensuring maximum accuracy, and distributes to appropriate personnel or agency. Maintains professional and technical knowledge by attending educational workshops and training on related systems. Ensure all necessary forms are available and copies are made. Works closely with the Non-Member Residence (NMR) Committee. Schedules appointments with Community Members, etc. Contacts and schedules meetings for the Non-Member Residence Committee. Attend meetings with the Non-Member Residence Committee. Attends all scheduled meetings as requested by the Director. Responsible and proficient in explaining the Non-Member Residence Code to the community. Provide excellent customer service via telephone and in person. Accountable for producing Identification Cards for NMR and Enrolled Members. Contributes to team effort by accomplishing related results as required. Maintains confidentiality of all privileged information. Performs other duties as assigned or required.

Director - Many of our essential duties and responsibilities involve maintaining discretion and confidentiality by keeping all personal and valuable documents safe within our Progeny database. The OVSE staff and I are also responsible for maintaining our program's catalogs of current tribal enrollment rolls, base rolls, and vital statistics documents, as well as updating current and future forms.

Our office has worked diligently to hand over multiple numbers of personal documents and files, which our staff members enter into our Progeny Database System. This system organizes all Tribal member and non-member documents and confidential information. Additionally, the Progeny Database System enables our staff to interact and communicate effectively with community members, Law Enforcement, Tribal Court, Tribal Leadership, and outside agencies regarding sensitive and personal information.

Our staff will continue to work hard each day and collaborate with our community, whether it involves enrollment, Census, Non-member residency, or day-to-day office work. We enjoy what we do, and we love seeing the faces of our community when they visit the office to obtain an ID, return an application, or update a document.

For those who are requesting documents from the Office of Vital Statistics, you can call our office, and request information using our electronic request form which can be filled out on your computer, phone, or tablet and sent directly back to us, once approved by the Governor, we can get your request out. This is OVSE policy; the staff have taken an oath of confidentiality, and before any documents can be issued to anyone, the Governor must approve their release.

To update your files, please get in touch with the Office of Vital Statistics and Enrollment to inquire about the necessary documentation required from you. The Governor and Tribal Council encourage all enrolled members to keep our office updated with their contact information. We continue to take pride in our daily work. Our focus is on maintaining essential levels of confidentiality and keeping our communities' documents safe and undisturbed.

Office of Vital Statistics & Enrollment

CALL US TO SCHEDULE YOUR APPOINTMENT!

The Santa Clara Pueblo Office of Vital Statistics & Enrollment would like to inform Enrolled Members and Non-Member Residents that the OVSE will be scheduling appointments for those individuals who have been accepted as enrolled members and Non-Member Residents. If you have a lost, damaged, or expired Tribal or Non-Member Resident Identification card, update your ID card today.

Call our office to update your documents and schedule an appointment.

Documents needed for Identification Card

- Official certified state-issued birth certificate.
- Current Address (addresses must be updated as changes occur, and proof of residency, agreement physical address, must be provided). Current New Mexico Driver's License or Photo ID card.
- Current Contact Information (landline, cell phone, & email address).
- Adoption Documents of an enrolled member from any tribal, state, or federal jurisdiction.
- Custody documents of a minor child from any tribal, state, or federal jurisdiction.
- Name change document of an enrolled member from any tribal, state, or federal jurisdiction.
- Other pertinent information includes but is not limited to, marriage license/certificate, informal marriage (common law) registrations, divorce decrees, power of attorney statements, land records, church records, military records, High school Diplomas or GED Certificates, and/or other school or tribal records, documentation or COVID-19 vaccination card (all three vaccines)

UPON RECEIPT OF
YOUR INITIAL TRIBAL
OR NMR ID, PLEASE BE
ADVISED THAT THERE
IS A \$25.00 RENEWAL
FEE IF YOU NEED TO
REPLACE A LOST OR
STOLEN ID.

(PLEASE RETURN YOUR OLD ID
WHEN UPDATING INFO FOR THE
NEW ID).

SANTA CLARA PUEBLO GYM

10AM – 3PM

Santa Clara Pueblo Drinking Water Quality System Annual Report for 2024

(Distributed June 2025)

The Santa Clara Pueblo Office of Environmental Affairs presents to the Pueblo community the annual drinking water system's Consumer Confidence Report (CCR) that is required for public drinking water systems in the United States by the Safe Drinking Water Act (SDWA). This report contains information on the community water system and details contaminants monitored through routine sampling January – December 2024. The Public Water System number for the Santa Clara Pueblo community system is 063500166. Twenty-four (24) samples for total coliforms, an indicator bacterium, were collected monthly from the system in the 2024 calendar year. None of the samples tested positive for Coliform bacteria. Other contaminants are detailed in the attached drinking water quality table.

This report is a snapshot of your water quality. Included are details about where your water comes from, what it contains, and how it compares to standards set by regulatory agencies. We are committed to providing you with information because informed customers are our best allies.

Do I need to take special precautions?

Some people may be more vulnerable to contaminants in drinking water than the general population. Immuno- compromised persons such as persons with cancer undergoing chemotherapy, persons who have undergone organ transplants, people with HIV/AIDS or other immune system disorders, some elderly, and infants can be particularly at risk from infections. These people should seek advice about drinking water from their health care providers. The Environmental Protection Agency (EPA) and Centers for Disease Control (CDC) guidelines on appropriate means to lessen the risk of infection by *Cryptosporidium* and other microbial contaminants are available from the Safe Water Drinking Hotline (800-426-4791).

Where does my water come from?

Drinking water for the Santa Clara Pueblo water system is produced by two primary wells and one back up well. The water drawn from the groundwater is disinfected with chlorine to get rid of dangerous bacteria and microorganisms. Disinfection is considered to be one of the major public health advances of the 20th century. The treated water flows through two storage tanks before entering the distribution system. Because the water source is groundwater, surface runoff contamination to the Pueblo drinking water system is not a high risk.

Why are there contaminants in my drinking water?

Drinking water, including bottled water, may reasonably be expected to contain at least small amounts of some contaminants. The presence of contaminants does not necessarily indicate that water poses a health risk. More information about contaminants and potential health effects can be obtained by calling the Environmental Protection Agency's Safe Drinking Water Hotline (800-426-4791).

The sources of drinking water (both tap water and bottled water) include rivers, lakes, streams, ponds, reservoirs, springs, and wells. As water travels over the surface of the land or through the ground, it dissolves naturally occurring minerals and, in some cases, radioactive material, and can pick up substances resulting from the presence of animals or from human activity including:

- **Microbial contaminants**, such as viruses and bacteria, that may come from sewage treatment plants, septic systems, agricultural livestock operations, and wildlife;
- **Inorganic contaminants**, such as salts and metals, which can be naturally occurring or result from urban stormwater runoff, industrial, or domestic wastewater discharges, oil and gas production, mining, or farming;
- **Pesticides and herbicides**, which may come from a variety of sources such as agriculture, urban stormwater runoff, and residential uses;
- **Organic chemical contaminants**, including synthetic and volatile organic chemicals, which are by-products of industrial processes and petroleum production, and can also come from gas stations, urban stormwater runoff, and septic systems;
- **Radioactive contaminants**, which can be naturally occurring or be the result of oil and gas production and mining activities.

In order to ensure that tap water is safe to drink, EPA prescribes regulations that limit the amount of certain contaminants in water provided by public water systems. Food and Drug Administration (FDA) regulations establish limits for contaminants in bottled water which must provide the same protection for public health.

How can I get involved?

The community may address any questions and concerns to the Santa Clara Office of Environmental Affairs, Governor's Office, Utility and Special Projects/Planning office. Community members are also able to express concerns or comments through their Tribal Council Representative and are encouraged to participate in general community meetings.

Protection of water sources begins at home with proper disposal of pesticides, oils, chemicals and other hazards. Management of animal wastes to prevent storm water runoff from carrying the waste into water channels is another important factor in the protection of Pueblo drinking water sources.

The water in the community drinking water system during this reporting period was safe to drink.

DRINKING WATER QUALITY TABLES

The tables below lists all of the drinking water contaminants detected during the calendar year of this report. The presence of contaminants in the water does not necessarily indicate that the water poses a health risk. Unless otherwise noted, the data presented in this table is from testing done in the calendar year of the report. The EPA or the State requires monitoring for certain contaminants less than once per year because the concentrations of these contaminants do not change frequently.

Contaminants	MRDLG	MRDL	Your Water	Range Low High	Sample Date	MRDL Exceeded	Typical Source
Disinfectants							

Chlorine	4	4	0.49	0.30	0.59	2024 Monthly	No	Drinking water additive used for disinfection

---------------------------	-----	-----	----	-----	-----	------	----	---

Contaminants	ALG	Action Level	Your Water	Range Low High	Sample Date	A.L Exceeded	Typical Source
Lead and Copper Rule							

Copper	1.3	1.3	0.09	0.001	0.09	2024	No	Corrosion of household plumbing systems; erosion of natural deposits; leaching from wood preservatives
Units: ppm - 90th Percentile				0 sites over Action Level				

Special Statements

Educational Statement for Lead

Lead can cause serious health problems, especially for pregnant women and young children. Lead in drinking water is primarily from materials and components associated with service lines and home plumbing. Santa Clara Pueblo is responsible for providing high quality drinking water and removing lead pipes but cannot control the variety of materials used in plumbing components in your home. You share the responsibility for protecting yourself and your family from the lead in your home plumbing. You can take responsibility by identifying and removing lead materials within your home plumbing and taking steps to reduce your family's risk. Before drinking tap water, flush your pipes for several minutes by running your tap, taking a shower, doing laundry or a load of dishes. You can also use a filter certified by an American National Standards Institute accredited certifier to reduce lead in drinking water. If you are concerned about lead in your water and wish to have your water tested, contact your water utility. Information on lead in drinking water, testing methods, and steps you can take to minimize exposure is available at <http://www.epa.gov/safewater/lead>.

Service Line Inventory

In 2024, Santa Clara Pueblo was required to complete an inventory of service line materials to determine whether any service lines connected to the distribution system are made of lead material. The service line inventory is available upon request, please contact us for more information.

Additional Information on Lead

Exposure to lead in drinking water can cause serious health effects in all age groups. Infants and children can have decreases in IQ and attention span. Lead exposure can lead to new learning and behavior problems or exacerbate existing learning and behavior problems. The children of women who are exposed to lead before or during pregnancy can have increased risk of these adverse health effects. Adults can have increased risks of heart disease, high blood pressure, kidney or nervous system problems.

Definitions

Term	Definition
ppm	parts per million, or milligrams per liter (mg/L)
ppb	parts per billion, or microgram per liter (ug/L)
Positive samples	the number of coliform positive samples taken that year
% positive samples/month	% of samples taken monthly that were positive
ND	Not detected
NR	Not regulated, but monitoring is highly recommended

N/A	Not applicable
MCLG	Maximum Contaminant Level Goal: The level of a contaminant in drinking water below which there is no known or expected risk to health. MCLGs allow for a margin of safety.
MCL	Maximum Contaminant Level: The highest level of a contaminant that is allowed in drinking water. MCLs are set as close to the MCLGs as feasible using the best available treatment technology.
MRDL	Maximum Residual Disinfectant Level
MRDLG	Maximum Residual Disinfectant Level Goal
TT	Treatment Technique: A required process intended to reduce the level of a contaminant in drinking water.
AL	Action Level: The concentration of a contaminant which, if exceeded, trigger treatment or other requirements which a water system must follow.
90th Percentile	Statistical value used to determine if Action Level is exceeded. Determined by calculating the value at which 90% of the samples tested were below that value.
