

**Request for Proposals  
Santa Clara Pueblo  
Environment  
Department**

**EPA Section 319 Non-Point Source Pollution Prevention Project for the Santa Clara Creek Watershed – 2026**

**SUMMARY –**

The Santa Clara Pueblo is seeking contractual services to conduct non-point source restoration projects to address non-point source pollution impairments and improve surface water quality in the Santa Clara Creek Watershed. **Deadline for proposal submittal is 4:00 p.m. – Monday, April 27, 2026**

**PROJECT DESCRIPTION–**

The Santa Clara Pueblo Office of Environmental Affairs is seeking contractual services to build non-point source best management projects within areas of the Santa Clara Creek Watershed, primarily in the tributaries to the Santa Clara Creek within the Santa Clara Canyon. The implementation of these projects will reduce the impacts of non-point source pollution and lead to the improvement of surface water quality in the Santa Clara Creek Watershed.

**PROPOSAL PACKETS AND INSTRUCTIONS –**

full packet with proposal requirements and scoring criteria may be obtained by email from [dinoc@santaclarapueblo.org](mailto:dinoc@santaclarapueblo.org)
