EPA Section 319 Non-Point Source Pollution Prevention Project for the Rio Santa Cruz Watershed - 2026

SUMMARY – The Santa Clara Pueblo is seeking contractual services to conduct non-point source best management practices to non-point source pollution impairments and improve surface water quality in the Rio Santa Cruz within the Santa Clara Pueblo boundaries. ***Deadline for proposal submittal is 4:00 p.m. – Monday, April 27, 2026***

PROJECT DESCRIPTION–

The Santa Clara Pueblo Office of Environmental Affairs is seeking contractual services to build water quality non-point source pollution prevention best management projects within areas of the Rio Santa Cruz Watershed under the jurisdiction of Santa Clara Pueblo. The implementation of these projects will reduce the impacts of non-point source pollution and lead to the improvement of surface water quality in the Rio Santa Cruz.

PROPOSAL PACKETS AND INSTRUCTIONS –

full packet with proposal requirements and scoring criteria may be obtained by email from dinoc@santaclarapueblo.org

Proposal may be mailed or emailed to the following address:

Dino Chavarria,
Environmental
Director
Santa Clara Pueblo
578 Kee Street
